

**SOCIETAL AND ETHICAL IMPLICATIONS TRAINING PROGRAMS IN THE NATIONAL  
NANOTECHNOLOGY COORDINATED INFRASTRUCTURE**

**Jameson Michael Wetmore, Ph.D.**

Associate Professor, School for the Future of Innovation in Society  
Co-director of the Center for Engagement and Training in Science and Society  
Arizona State University

**Abstract:** This talk will give a brief overview of the motivations behind the NNCI's training programs in SEI as well as some of their outcomes.

**Bio:** Jameson Wetmore is an associate professor in the School for the Future of Innovation in Society and co-director of the Center for Engagement and Training in Science and Society at Arizona State University. His work combines the fields of science and technology studies, ethics, and public policy in order to better understand both the interconnected relationships between technology and society and the forces that change those relationships over time. He serves as co-director for Societal and Ethical Implications of the NSF's National Nanotechnology Coordinated Infrastructure Coordinating Office as well as the Nanotechnology Collaborative Infrastructure Southwest.
