

*NSF NANOSCALE SCIENCE AND ENGINEERING GRANTEES CONFERENCE:
NANO AND AI CONVERGENCE
DECEMBER 9-10, 2024*

MARY TANG

Managing Director, Stanford Nanofabrication Facility
Stanford University

Bio: Dr. Mary Tang is the Managing Director of the Stanford Nanofabrication Facility (SNF), in nano@stanford, one of 16 sites comprising NSF's National Nanotechnology Coordinated Infrastructure, which enables open access to nanofacilities to support R&D innovation and translation to commercialization. Mary also coordinates fabrication facilities in the Pacific Northwest AI Hardware Hub of Microelectronics Commons, for which Stanford is the co-lead institution. She is passionate about experiential learning for making hardware and data ecosystems for knowledge-sharing in laboratories.
